BACKGROUND AND PURPOSE

The Red River Valley Water Supply Project (RRVWSP) began as a joint federal, state, and local effort to deliver high quality Missouri River water to the region. The Dakota Water Resources Act of 2000 authorized the project to provide a supplemental water source for improved drought resiliency for the Red River Valley. In 2013, it was clear the project would not receive federal approval. Today, the project continues with state and local sponsorship. RRVWSP will deliver Missouri River water to central and eastern North Dakota from south of Washburn to a discharge in the Sheyenne River. In conjunction, Garrison Diversion Conservancy District and the Lake Agassiz Water Authority (LAWA) are also pursuing the Eastern North Dakota Alternate Water Supply (ENDAWS), which would utilize the McClusky Canal as a water source.

HISTORIC FUNDING

Local	\$86M
State	\$297M

FUTURE FUNDING

Est. Remaining Funds	\$940M-\$1.35B
Local	\$242M-\$347M
State	\$697M-\$1B

PROJECTED COST SCHEDULES

RRVWSP - 10 Year	\$1.79B
RRVWSP - 8 Year	\$1.74B
RRVWSP - 6 Year	\$1.7B
ENDAWS - 10 Year	\$1.41B
ENDAWS - 8 Year	\$1.4B
ENDAWS - 6 Year	\$1.3B

LOCAL SPONSORS

The Garrison Diversion Conservancy District is made up of 28 member counties who each elect a citizen to serve on the board of directors. The principal mission of the organization is to provide a reliable, high quality, and affordable water supply to benefit the people of North Dakota.

In 2003, the North Dakota Legislature created LAWA to address future water needs in the Red River Valley. LAWA was further directed to develop a reliable supply of drinking water to central and eastern North Dakota. LAWA serves as the representative for RRVWSP water users, and is a cooperating entity with the Garrison Diversion Conservancy District.
